

UNCHARTED

A documentary crew flies to the Mexican reviera in search of capturing on film a rare jaguar. Fate has other plans for the Cinema Verde team after they crash land on a desert island off the Pacific Baja coast. What they do capture on tape is a mysterious series of killings as one by one the crew become the prey of a an unknown force hunting them down. By the Time they're rescued... There may be nothing left...

(This is all I could think of to write. Perhaps you could come up with a few more words after looking at the trailer).

Uncharted is in post production at the moment and is scheduled to be released in early 2008.

~Produced, Story by and starring Demetrius Navarro, Shana Montanez, Frederick Sainz, Erin Howie, Carlos Meza, with John Hillard and Erlinda Orozco.
